	Q1	Q2	Q3	Q4	Average
2001	96,292	97,503	97,898	95,087	96,695
2002	97,628	98,417			98,025

The number of persons booked appears to be on the rise. The bookings per month for the 2nd Quarter of 2002 (98,417) was slightly higher than all of the 2001 Quarter results. If the current trend continues, the bookings for 2002 will be at a five-year high. This lends additional support to the possibility of continued increases in the overall ADP.
